

Cross-page notes

A numbered note run continues onto the facing page.

Notes

1. "Vortices in Quiet Channels," *Journal of Fictional Fluid Studies*, July 1904: 10-20.
2. "Adaptive Wake Control," *Journal of Fictional Fluid Studies*, March 2021: 81-99.
3. This explanatory note deliberately contains no source date.

4. A. Quill, "Friction in Model Boundary Layers," *Synthetic Aerodynamics* 12: 75-90 (1994).
5. B. North, "Simulated Turbulent Transport," *Synthetic Aerodynamics* 18: 154-171 (2011).
6. This second explanatory note also contains no source date.
7. "Adaptive Wake Control," *Journal of Fictional Fluid Studies*, March 2021: 81-99.
